

Newsroom Portfolio Website

This project is a Newsroom Portfolio website built using Adobe Experience Manager (AEM). It showcases a journalist's work, including news articles, awards, and personal background, using OOTB and custom components.

Project Structure

Homepage: Built using the OOTB content page template with teaser components.

News Page: Uses a custom `newsList` component to display all news articles.

News Articles: Authored under `/content/news` using the `news` component.

About Me Page: Uses the custom `journalist` component.

Contact Me Page: Uses `teaser` or `text` components to show contact details.

Books Section (Dropdown in Header): News appears under this dropdown.

Components Used

Out-of-the-Box (OOTB) Components

- Header & Footer: Added at the template level to appear across all pages.
- `teaser`, `text`, `image`, `title`, `navigation`, `breadcrumb`, `form`

Custom Components (from `ui.apps`)

- `basepage` (template used for books page)
- `news`: Used to author individual news articles
- `newsList`: Used to fetch and render news articles as cards on the News Page
- `journalist`: Used on the About Me page

Page Details

Header (OOTB)

- Includes navigation links:
 - Home
 - News (Dropdown under “Books”)
 - About
 - Contact Me
- Styled appropriately using navigation components.

Footer

- About Me section
- Contact Me section
- Latest 5 News Links (open in new tab)
- Social Media Links

Home Page

- Built with OOTB ****content page template****
- Contains ****teaser component**** for an award ceremony:
 - Image, title, description
 - CTA linking to full award news page

News Page

- Built with ****NewsRoom (`newsList`) component****
- Gets parent path as ``/content/news``
- Fetches and displays all news articles authored under ``/content/news``
- Each card includes:
 - Unique title
 - Description (text component)
 - Image

News Article Pages

- Authored manually under `/content/news`
- Each article includes:
 - Title component
 - Image component
 - Text component

About Me Page

- Uses `journalist` component only
- Describes background and profile of the journalist

Contact Me Page

- Uses `text` or `teaser` components
- Contact information and social media profile links

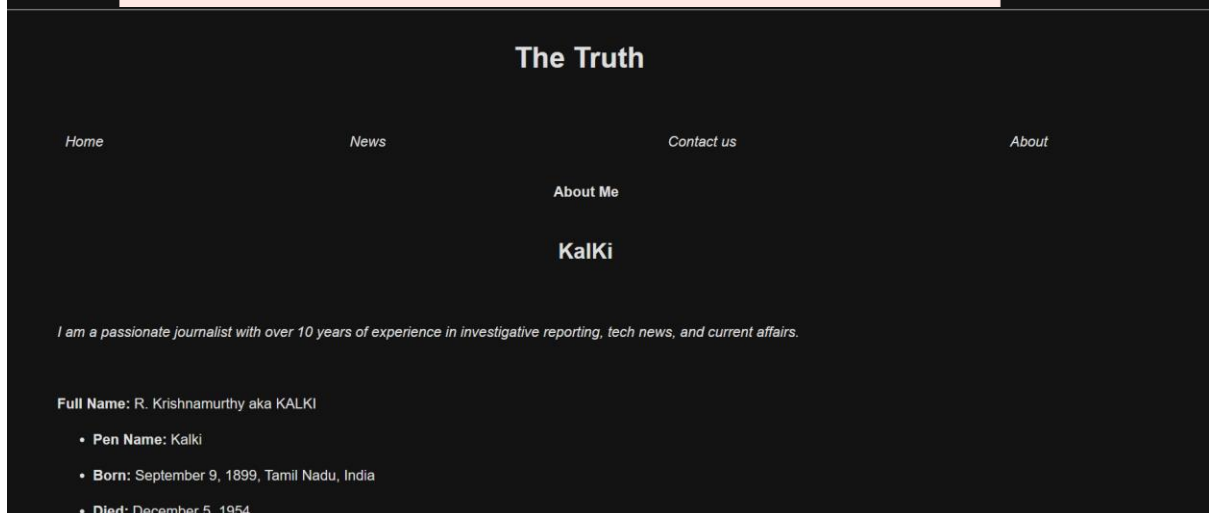

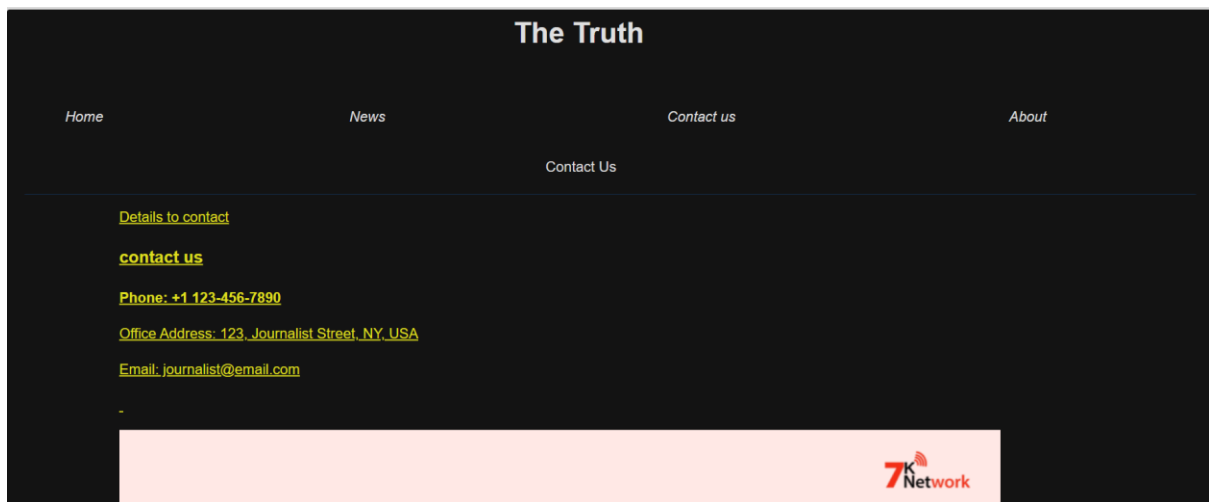

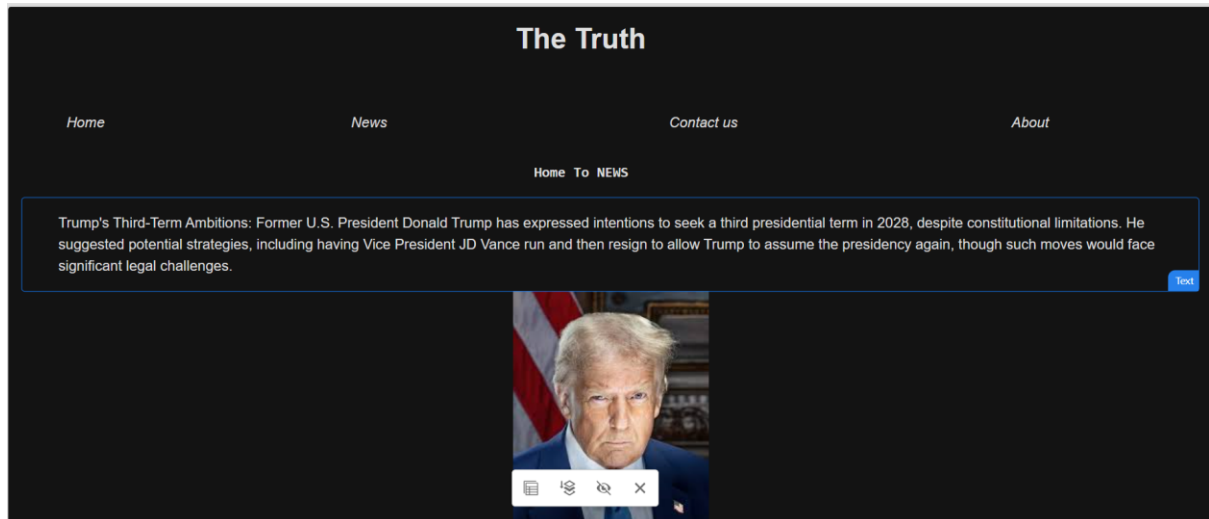

Templates Used

- `contentpage` (OOTB) → Home, About Me, Contact Me
- `bookpage` (Custom from assignment) → News page

Notes

- Header and Footer added at the template level for global consistency
- News article cards rendered dynamically via authored `newsList` component
- All content authored using AEM Touch UI

Screenshots

- [x] Header and footer working on all pages
- [x] News articles authored under `/content/news`
- [x] NewsList component configured with parent path
- [x] About Me page using journalist component
- [x] Contact page has working social/media details
- [x] CTA on home page working

Useful Paths

- Homepage: `/content/newsroom/home`
- News Page: `/content/newsroom/news`
- Articles: `/content/news/article1`, `/content/news/article2`, etc.
- About Me: `/content/newsroom/about-me`
- Contact Me: `/content/newsroom/contact-me`

Developer Notes

Ensure all news pages are authored under `/content/news`, and they contain:

- `title`
- `image`

- `text`

These are essential for the `newsList` component to display cards properly.
